 Information 

DESCRIPTION

An excursion to explore the forest species and nature of Valle di Lodano.

This hike takes you right through the center of the valley to discover a part of the forest reserve and its varied arboreal vegetation: chestnut groves, pioneer forests, and woods of beech, larch, Norway spruce, and silver fir.

Once you reach Alp da Canaa, on the slopes of Cramalina, the itinerary continues to Alp di Pii, also home to a small alpine lake and a unique biotope, and then descending back down the valley.

The natural scenery and features of this journey are striking.

Day 1: Lodano - Castèll - Alp da Canaa, 6.5 km, 4h 30 min.

Day 2: Alp da Canaa - Alp di Pii - Lodano, 8 km, 3h 10 min.

Tips

Waterproof clothing, light and warm

Hiking boots

Gloves, sun cap, change of clothes

Backpack maximum 5-8 kg

First aid kit with penknife

Sleeping bag for overnight in alpine hut

Torch, sunglasses, sun cream, water-bottle

Hiking map/topographic map

Compass

Camera

Food

Raincover for backpacks

Montagnepulite: This project was born to promote an effective management and sustainable use of mountain huts in Ticino, and in particular the litter management. The responsible management of litter in the mountains is a matter of common sense. We can all contribute:
