DESCRIPTION

Whisked up by the cableway in less than a quarter of an hour to the foot of the Basodino glacier, we stroll along a pleasant path towards the Lielpe valley.

The rugged beauty of the surrounding Alpine landscape is enhanced by exceptional fauna and flora.

Having crossed through the summer pastures and walked beside the crystal-clear waters of Lake Bianco, we climb the last stretch of the path leading to the Cavagnoli dam.

After admiring the majestic peaks all around, we enjoy a well-deserved refreshment at the Albergo Robiei restaurant on our return.

Montagnepulite: This project was born to promote an effective management and sustainable use of mountain huts in Ticino, and in particular the litter management. The responsible management of litter in the mountains is a matter of common sense. We can all contribute:
