DESCRIPTION

Constantly sun-drenched, Cari is the ideal starting point for wonderful rides with snowshoes. In winter, this tiny village in the Leventina valley, situated at an altitude of 1,655 m above sea level, lights up and comes to life.

The snowshoe path starts from the ticket office of the lift facilities and runs up to the mid-line station of the chairlift, where you will find a tavern with a panoramic terrace. Along the way, you will go past Prödor (1740 m above sea level) and Predelp (1670 m above sea level), with the wonderful Prodör hut and the cosy holiday farm house “Alla Meta”.

The landscape of the woodland of the “Faura di Düsbina”, mainly covered in spruce (*Picea abies*) and Scots pine (*Pinus silvestris*) at lower altitudes and in larch (*Larix decidua*) at higher altitudes, is really spectacular. The forest was planted at

the beginning of the 20th century to protect Faido from the landslides which affected the areas along the sides of the Formigario torrent. Along the way, it is interesting to observe the water works which stop the water from eroding the side of the mountain.

The path between Cari and Brusada is called the “sentiero del montanaro” (the mountaineer’s path) and is enhanced by the presence of educational displays providing information on the wildlife which has its habitat in the region.

Tips

For snowshoe trails, follow the logo indicated on the rose signposts:

Percorso Cari 955.

The route [Percorso Cari 955 \(https://www.schweizmobil.ch/en/snowshoe-trekking/trails-e/route-0955.html\)](https://www.schweizmobil.ch/en/snowshoe-trekking/trails-e/route-0955.html) is part of the national network of SwitzerlandMobility.

For safety reasons, it is forbidden to leave the marked route.

Equipment:

Snowshoe

Boots

Hiking stick

Sun cup

Gloves

Sunglasses

Sun cream

Water-bottle
